

THE WESTERN AUSTRALIAN SOLAR WATER HEATER SUBSIDY SCHEME

The Solar Water Heater Subsidy Scheme provides rebates for environmentally friendly gas-boosted solar water heaters.

KEY ELIGIBILITY CRITERIA

- Rebates are available for new, complete, family sized, gas-boosted solar water heaters that are accredited to Australian Standard AS2712.
- Solar water heaters must be used for private residential purposes in Western Australia (excepting display homes and residential developments where special conditions apply).
- Solar water heaters must be purchased from suppliers recognised by SEDO.
- Solar water heaters must be purchased and installed within the 12 months prior to a rebate application being received by SEDO.
- Applications for new homes must be pre-approved prior to installation and purchase of a system applicable for the rebate.
- Refer to the *Scheme Guidelines* for full details of eligibility criteria.

REBATE AMOUNT

- \$500 for natural gas-boosted solar water heaters
- \$700 for bottled LP gas-boosted solar water heaters used in areas without reticulated gas.

PROCESS FOR APPLYING FOR THE REBATE

1. Read the *Scheme Guidelines*. It is a separate document to this application form. Ensure that your supplier provides you a copy or download it from the SEDO website.
2. Contact suppliers of gas-boosted solar water heaters to determine the appropriate type and size of system required. SEDO recommends that you contact more than one supplier.
3. If your gas-boosted solar water heater is part of your new home specification, you will need to seek formal pre-approval for a rebate via your chosen supplier before the unit is installed.
4. Complete this *Solar Water Heater Subsidy Application Form* in conjunction with the installer once the gas-boosted solar water heater has been installed and is operational.
5. Send the application form to your supplier who will then make a claim to SEDO on your behalf.
6. SEDO assesses the application and approves those that meet the requirements of the Scheme, subject to available funding. SEDO requires full details (entered into the correct form) to assess applications, and reserves the right to suspend processing of incomplete applications until all necessary details have been provided. Any applicant so affected will be advised of the necessary details required to complete an application.
7. Payment of the rebate will usually occur within eight weeks of the rebate application being approved. The rebate will be paid to the supplier and either credited to you as an upfront discount on the cost of the solar water heater, or paid to you by the supplier after the application has been approved.
8. SEDO reserves the right to alter the Solar Water Heater Scheme at any given time, subject to sufficient notice. This can include changes to the rebate level, expiry terms for pre-approvals and other eligibility criteria pertaining to the Scheme.

Title _____ First name _____ Surname _____
Postal address _____ Postcode _____
Daytime phone number _____

Applicant Declaration

In applying for funding under the Solar Water Heater Subsidy Scheme I agree that:
(each checkbox below must be ticked before this application is considered):

- I agree to meet all requirements of the Solar Water Heater Subsidy Scheme and agree that this application is subject to the Scheme Guidelines.
- I confirm that my details and to the best of my knowledge those completed by the installer are accurate.
- This is the first time that I have claimed a Solar Water Heater Subsidy Scheme rebate for the above premises.
- I agree that the rebate will be paid to the supplier on my behalf, and either credited to me as an upfront discount on the cost of the solar water heater, or paid to me by the supplier after this application has been approved by SEDO.
- I agree that an inspection of the solar water heater at the installation address may be conducted by officers from the Sustainable Energy Development Office to verify the information in this application.
- I acknowledge and agree that neither the State Government, the Sustainable Energy Development Office, nor any of their officers or employees accept any liability of any loss, damage, cost, expense, claim, demand or cause of action whatsoever arising out of, or in relation to, the manufacture, installation or use of any solar water heater that is subject of a rebate.
- I acknowledge and agree that if any of the information contained in this application is found to be false or misleading I may be required to refund the rebate and may incur criminal sanctions for fraud.
